IDEAS TO **DIGITAL REALITY**

At Neom Nex Technologies, we go beyond traditional IT services to deliver transformative digital solutions. We specialize in mobile and web application development, innovative web design, and result-driven digital marketing strategies that help businesses thrive in a competitive digital landscape.

Our team of experts works closely with clients to understand their goals and challenges, creating customized, scalable solutions that align with their brand and audience. Whether you're launching a startup or expanding an enterprise, we blend technology, creativity, and strategy to ensure a seamless user experience and measurable results.

From intuitive mobile apps to responsive websites and impactful digital campaigns, Neom Nex Technologies is your trusted partner in turning ideas into reality and accelerating business growth through technology.

1 WEB & MOBILE APPLICATION

E-commerce Apps:

Online stores for seamless shopping and payments.

Booking & Reservation Systems:

For appointments, hotels, events, or services.

Healthcare Apps:

Patient management, telemedicine, and health tracking.

Educational Platforms:

E-learning, online courses, and virtual classrooms.

Custom Business Solutions:

Tailored apps to meet specific business needs.

Real Estate Apps:

Property listings, virtual tours, and client inquiries.

Logistics & Delivery Apps:

Real-time tracking and order management.

Finance & Payment Solutions:

Secure transactions, wallets, and billing, and accounts

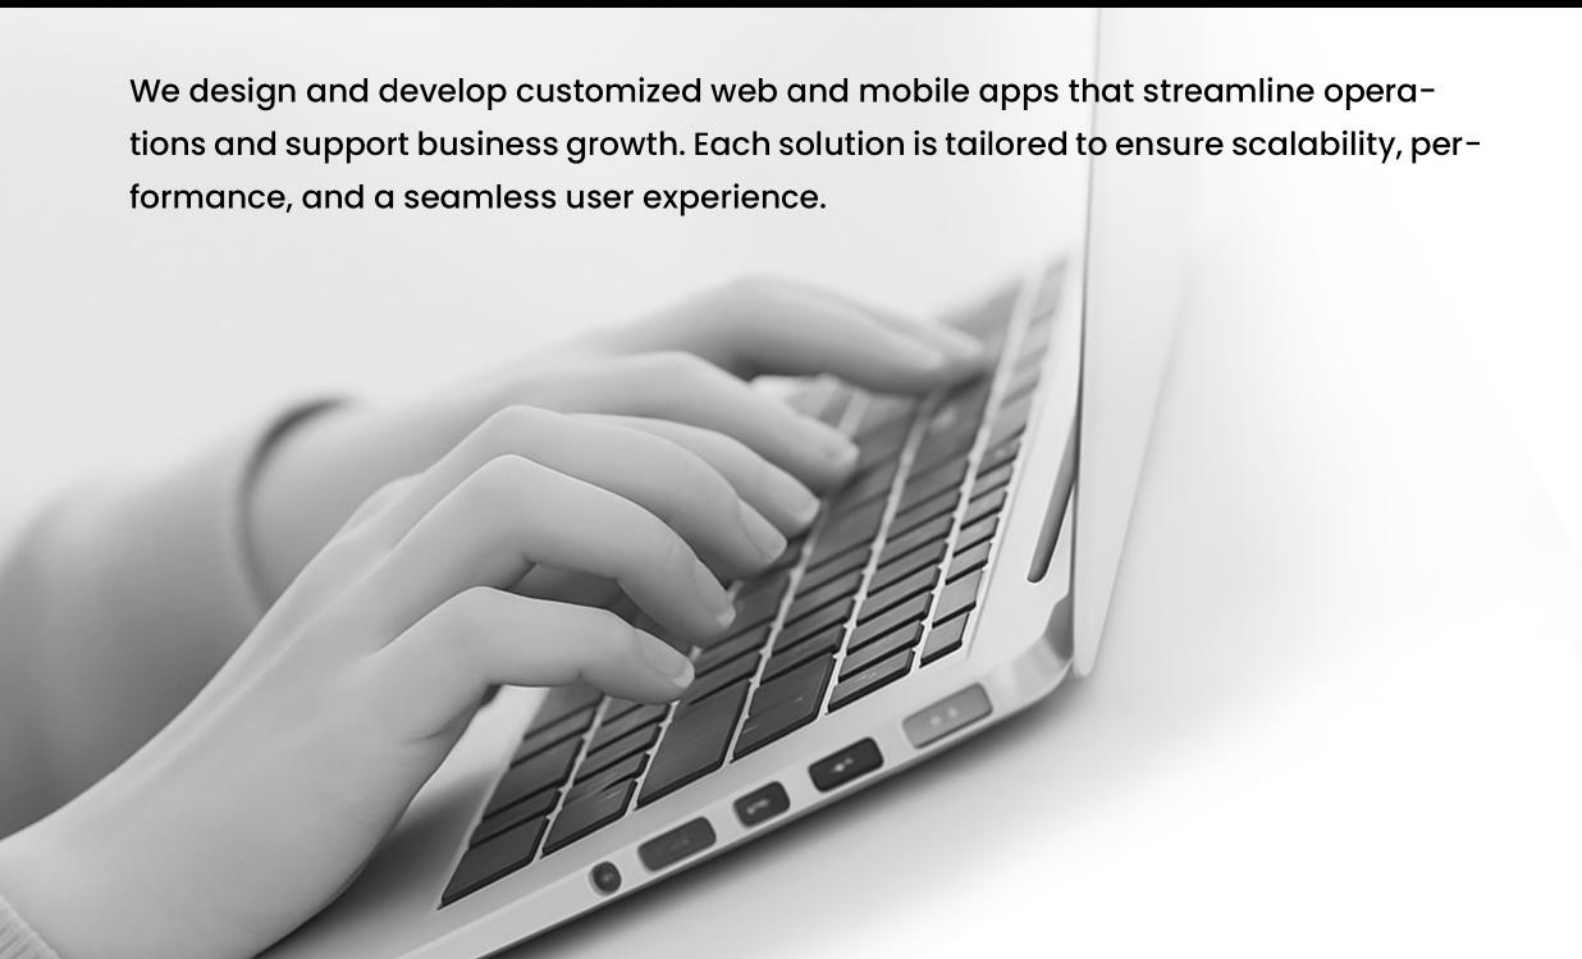

Social Networking Apps:

Platforms for connecting and sharing content.

CRM & ERP Systems:

Tools for managing customers, resources, and workflows.

We design and develop customized web and mobile apps that streamline operations and support business growth. Each solution is tailored to ensure scalability, performance, and a seamless user experience.

2 WEB DESIGNING

Great design is the foundation of every strong brand. We create professional, purpose-driven solutions — from static sites and dynamic platforms to graphics and full e-commerce experiences — all focused on engaging and converting your audience.

- ▶ **Static Website Designing:** Simple, fast-loading websites with fixed content — ideal for small businesses that need a professional online presence without frequent updates.
- ▶ **Dynamic Website Designing:** Interactive websites with content that can be updated easily via admin panels or CMS platforms
- ▶ **Graphic Designing:** Creative visual design services including banners, logos, social media posts, brochures, and more to build strong brand identity.
- ▶ **E-Commerce Website Designing:** Complete online store setup with product pages, shopping cart, secure payment gateways, and user-friendly navigation.
- ▶ **Website Redesign:** Give your outdated website a modern, responsive, and high-performing makeover to improve user experience, speed, and aesthetics.

3 DIGITAL MARKETING

We use digital marketing to promote our services, increase online visibility, and reach more customers through social media, SEO, google my business and targeted campaigns.

WE WILL **HELP** YOU TO **GROW** YOUR BRAND

- ▶ **Social Media Marketing (SMM):** We grow your presence on social media to engage your audience and drive results.
- ▶ **Search Engine Optimization (SEO):** We boost your website's Google ranking to increase visibility and organic traffic.
- ▶ **Google Business Profile Optimization:** We optimize your Google Business Profile for better local search visibility and customer trust.
- ▶ **Pay-Per-Click Advertising (PPC):** We run ads to drive traffic and generate leads with measurable results.
- ▶ **Content Marketing:** We create SEO-friendly content to attract, inform, and convert your audience.
- ▶ **Email Marketing:** We create targeted email campaigns to engage leads and drive conversions.
- ▶ **Analytics & Reporting:** We deliver performance reports with insights to improve your digital strategy.
